DAILY FIELD WORK RECORD**

Master of Business Administration (MBA) – I

Group No.: 8

Village Name: Kandalgaon

DAY 1 – 22/01/2026 (Thursday)

Place Visited: Entrance of Kandalgaon Village, Agricultural Site, Weekly Market

1. **Discussion:** Discussion was conducted with local farmers, villagers, and weekly market vendors regarding agricultural practices, village surroundings, and market functioning.

2. Observations:

- Kandalgaon village has a rural setup with agriculture as the main occupation.
- Farmers cultivate seasonal crops and depend on rainfall and nearby water sources.
- The weekly market is an important center for selling farm produce and buying daily essentials.
- Active participation of farmers, traders, and villagers was observed.

3. Key Findings:

- Agriculture is the primary livelihood of villagers.
- Traditional farming practices are widely followed.
- Weekly market plays a vital role in the village economy.
- Farmers face income fluctuations due to changing market prices.

4. Proposed Solutions:

- Create awareness about modern farming techniques.
- Improve facilities at the weekly market.
- Provide government support for fair pricing of crops.

5. Location Visit:

Agriculture Site

Entrance of Kandalaon Village

Market

DAY 2 – 23/01/2026 (Friday)

Place Visited: Bank, Local Business Establishments

1 Discussion: Discussion was held with bank staff (Branch Manager) and local shop owners to understand banking services and business activities.

2. Observations:

- Banks provide savings accounts, loans, and government scheme services.
- Local businesses are mostly small-scale and family-run.
- Cash transactions are common, though digital payments are slowly increasing.

3. Key Findings

- Financial literacy among villagers is limited.
- High dependence on cash transactions.
- Local businesses play an important role in daily life.

4. Proposed Solutions

- Conduct financial literacy and digital banking awareness programs.
- Encourage shop owners to adopt formal banking practices.

5. Location Visit:

IndusInd Bank

Local Business

DAY 3 – 24/01/2026 (Saturday)

Place Visited: Milk Dairy, Clinic

1. Discussion: Discussion was conducted with dairy workers, milk suppliers, and with Doctor (Dr. Vishal Magdum)

2. Observations

- The milk dairy collects milk daily from local farmers in a systematic manner.
 - Dairy farming provides regular income to villagers.
 - The clinic provides basic healthcare services.
 - Advanced medical facilities are not available in the village.

3. Key Findings

- Dairy sector strengthens the rural economy.
 - Healthcare facilities are limited.
 - Villagers depend on nearby towns for serious treatment.

4. Proposed Solutions:

- Improve dairy storage and transportation facilities.
 - Strengthen healthcare services with better equipment and staff.
 - Organize health awareness camps.

5. Location Visit:

Dairy

Clinic

DAY 4 – 25/01/2026 (Sunday)

Place Visited: Gram Panchayat, Krushi Seva Kendra, Interaction with Locals, Local Business (Kirana Shop)

1. Discussion:

Discussion was held with Gram Panchayat members, Krushi Seva Kendra staff, and villagers.

2. Observations:

- Gram Panchayat manages village administration and development.
- Krushi Seva Kendra provides seeds, fertilizers, and farming guidance.
- Villagers actively approach officials for support.

3. Key Findings:

- Awareness about government schemes is low.
- Agriculture activities in the village are gradually decreasing
- Panchayat plays a key role in village development.

4. Proposed Solutions:

- Improve communication about government schemes.
- Conduct regular farmer training programs.
- Strengthen coordination between officials and villagers.

5. Location Visit:

Kirana Shop

Interaction with Locals

Krushi Seva Kendra

DAY 5 – 26/01/2026 (Monday)

Place Visited: Village Temple, Water Well

1. Discussion:

Discussion was conducted with temple committee members, villagers, water supply workers

2. Observations:

- The temple acts as a social and cultural center.
- Water well is a major source of water for villagers.

3. Key Findings:

- Water scarcity increases during summer.
- Need for better water management.

4. Proposed Solutions:

- Promote water conservation practices.
- Encourage community participation.

5. Location Visit:

Village Temple

Water Well Connection

DAY 6 – 27/01/2026 (Tuesday)

Place Visited: Road & Facility Development Areas, Lake Visit, Interaction with people, School Visit

1. Discussion:

Discussion was conducted with villagers, road workers, and fishermen near the lake. and school teachers. (Principal) – Mr. Pawar Sir

2. Observations:

- Some village roads require maintenance.
- The lake supports fishing and irrigation.
- Fishermen depend on the lake for livelihood.
- Public school provides basic education to children.

3. Key Findings:

- Poor road conditions affect transportation.
- Fishing is a seasonal source of income.
- Lake is an important natural resource.
- School infrastructure requires improvement.

4. Proposed Solutions:

- Improve road infrastructure and maintenance.
- Promote sustainable lake management.
- Provide support schemes for fishermen.

5. Location Visit:

Construction Site

Lake Visit

Interaction with people
